Mob: +91 9618432896

Email: subrahmanyamgaddam6@gmail.com

Professional Objective:

Results-oriented Electronics and Communication Supervisor with 2 years of experience in maintenance, troubleshooting, and supervision of electronic systems and industrial equipment. Skilled in maintenance schedules, preventive and corrective maintenance, team coordination, and ensuring smooth plant operations. Seeking to contribute technical expertise, leadership skills, and a commitment to operational excellence in a growth-oriented organization.

Academic Project:

Design and Implementation of IOT Based Traffic Control System

- Developed an IoT-enabled smart traffic management system to monitor and control traffic flow at road intersections.
- Integrated sensors and microcontroller modules to collect real-time vehicle density data.
- Automated traffic signal timing based on traffic congestion levels, reducing unnecessary waiting time.
- Implemented wireless communication for transmitting traffic data to a centralized monitoring platform.
- Improved traffic efficiency through data-driven signal control and real-time traffic monitoring.

Career Overview:

- Dedicated Electronics and Communication Supervisor with 2 years of hands-on experience in overseeing installation, maintenance, and troubleshooting of electronic and communication systems across operational environments.
- Proven ability to supervise and coordinate technical teams, ensuring tasks are completed on time, within budget, and in compliance with industry standards and safety regulations.
- Skilled in preventive, predictive, and breakdown maintenance to ensure maximum equipment availability and reliability.
- Experienced in creating and implementing maintenance strategies to enhance operational performance.
- Capable of monitoring equipment performance, identifying faults, and implementing corrective actions to minimize downtime.
- Effective team leader with strong communication, problem-solving, and supervisory skills in a manufacturing environment.
- Strong understanding of communication protocols, signal processing, and electronic control systems, with the ability to implement upgrades and improvements to existing infrastructure.

- Committed to staying updated with emerging technologies in electronics and communication, applying best practices to optimize system performance and contribute to organizational efficiency and growth.

Employment History:

Strides Enterprises

September 2025-Present

- A leading plastic manufacturing company specializing in high-quality plastic products and industrial packaging solutions for various industries.

Roles and Responsibilities:

- Supervised and coordinated a team of electronics and communication technicians, ensuring timely execution of installation, testing, and maintenance tasks across all assigned projects.
- Monitored, inspected, and maintained electronic systems, communication equipment, and control panels to ensure optimal performance, minimize downtime, and prevent equipment failures.
- Coordinated with production and maintenance teams to achieve maximum equipment availability and productivity.
- Conducted regular performance evaluations, training sessions, and technical skill development programs for team members to enhance productivity and technical competency.
- Prepared and maintained detailed technical documentation including maintenance logs, inspection reports, equipment inventory, and incident reports for management review.
- Implemented quality control procedures and conducted routine audits on electronic systems and communication networks to identify performance gaps and drive continuous improvement initiatives.
- Ensured adherence to safety standards and electrical maintenance protocols across the plant.
- Managed spare parts inventory and coordinated with vendors for procurement of maintenance materials.
- Trained and mentored junior technicians on technical procedures, safety protocols, and equipment handling, contributing to overall team skill development and productivity improvement.

Education:

- B.Tech-Electronics & Communication Engineering.

IT Skills:

- Conversant with **MS-Office, MS Projects, Auto CAD, and Internet Application.**

Personal Information:

Date of Birth	:	06-08-2003
Nationality	:	Indian
Marital status	:	UnMarried
Languages	:	English, Hindi, Telugu
Permanent Adress	:	13-90/e, Garepally, Jayashankar Bhupalpally, Hyderabad, Telangana – 500503.
